

FOR PEOPLE WITH INTELLECTUAL AND
DEVELOPMENTAL DISABILITIES

Funding for Home and Community-Based Services Is on the Line

Contact Congress NOW

A new bill that is **essential** for people with disabilities, their families, and the direct support professional workforce, called the **Better Care Better Jobs Act**, is moving through Congress. This critical bill includes a long overdue \$400 billion for Medicaid, which supports people with disabilities to do things like get dressed, take care of their families, work, and participate in their communities.

However, **we are now hearing** that this \$400 billion investment may be cut in **HALF!** We must stop this from happening! **Contact your Members of Congress now** and tell them #CareCantWait.

We need a big investment to make this system work for everyone who needs it. Too many people are stuck on waiting lists, relying on unpaid caregivers, or forced to live in institutions. The \$400 billion investment in Medicaid proposed in the Better Care Better Jobs Act is already long overdue!

The stakes are high – take 2 minutes to **contact your Members of Congress!**

True community means **EVERYONE**
has the opportunity to live, work,
and build the life they want.

**It's time to put community
first for disability services!**
