

AHRC Suffolk's Seiff Educare Center hosts its "Make Your Mark" Art Show

On Friday, February 16, AHRC Suffolk's Saul & Elaine Seiff Educare Center held their "Make Your Mark" Art Show! The in-house event was a true success allowing the school's students to see their own creative works on display. Staff from other locations visited to see the artwork and purchase refreshments from the Seiff Sweet Shop, which is a work skills learning opportunity run by students and their teachers.

Thank you to all who helped make this event a special one including News12 Long Island who stopped by for a visit to document how the Educare Center is raising money for a new fully accessible adaptive playground! We loved the spotlight and are excited to keep setting goals and breaking boundaries to ensure our programs have the best of the best!

We are still accepting donations to reach our goal for the playground. If you are interested in contributing, please visit our homepage.
